

Each month through the *Engage Kids* activity booklet, your children will join Louie the monkey, Alex, Emma, and their Asian friends Guang and Hua on a fun, interactive missions journey of their own. This booklet contains activities and stories which help the children learn about Asia. They will even be given opportunities to connect with missionary kids their own age. Your kids will love this program!

this exciting missions series.*

# Hope for *Asia*

For centuries the people of Asia have erected literal and figurative walls. Whether because of Communist control in China or superstition surrounding ancestor worship in Taiwan, these walls have been built because of fear. Though it is difficult to break through these barriers, God is helping HIM missionaries do so with the hope of the Gospel.

In this video series you will hear from various missionaries as they share how they are working to make disciples of Christ among the Asian people.
