

# engage Kids

Each month through the Engage Kids activity booklet, children will join Ts'epo, Palesa, and Louie the monkey on a fun, interactive missions journey of their own. This booklet contains activities and stories which help the children learn about Africa. They will even be given opportunities to interact with missionary kids their own age. Your kids will love this program!

Hope International Missions Presents

## HOPE FOR AFRICA

*Discover how you can  
impact the world through  
this exciting missions series.*

# HOPE FOR AFRICA

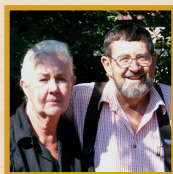

Africa is an enchanting continent filled with mystique, wild beauty, and vast diversity. It is the second most populous and second largest continent on the globe. Unfortunately, it also has some of the world's greatest humanitarian needs. These needs are combined with a spiritual darkness that often includes worship of demons and ancestors. God is helping HIM missionaries shine the light of the gospel into people's lives in ways that meet both their spiritual and physical needs.

In this video series you will hear from various missionaries as they share how they are working to make disciples of Christ among the African people.
