5. Missions has often been portrayed as an occupation for people who are "experts" at preaching or teaching the gospel. This can scare off individuals who do not feel gifted in these areas. However, the reality is there are opportunities and needs for many different types of missionary workers. In Africa, we need professional people who could start businesses or be employed in places that are hard to enter as a "traditional" missionary. We need humanitarian and medical missionaries, and people who can share the love of Jesus while they teach others to speak English. And the list goes on! Think of one or two people you know who would not think of themselves as missionary material. \_\_\_\_\_  
How can you encourage them to make a difference in one of these areas? \_\_\_\_\_

7. The vision of HIM Africa is for there to be at least one thriving, reproducing holiness church in every country on the continent. Perhaps you are confident God is not asking you to leave your life here in America to serve as a missionary in Africa. However, what changes could be made in your life to assist in accomplishing this vision? \_\_\_\_\_
